ABOUT ME

Information Systems and Management student at Rhodes University with practical experience in IT support, peer and academic tutoring, and small-business e-commerce. Familiar with troubleshooting hardware, software and network issues, and with web development using HTML, CSS, PHP and JavaScript. Academic and project work has included database/SQL concepts, data analytics and the development of web-based systems. Brings clear communication, collaborative working, organisation and a willingness to build technical capability through structured learning and hands-on experience

TECHNICAL SKILLS

- **IT support & troubleshooting:** Software troubleshooting, software installation, user support, basic network issue resolution
- **Web development:** HTML, CSS, PHP and JavaScript (foundational/practical project experience)
- **Data & databases:** SQL/database concepts, database management, Tableau, Tableau Prep, Power BI and Excel (beginner-level analytics tools)
- **Business & delivery:** Problem-solving, attention to detail, customer service, organisation, teamwork and stakeholder communication
- **Digital operations:** E-commerce administration, inventory coordination, website content, social media campaigns and branding

EXPERIENCE

Student IT Technician, *Rhodes University* 2024 – Present

- Troubleshoot hardware, software, and network issues in a fast-paced library environment, ensuring minimal downtime for users.
- Assisted students and staff with technical problems, translating complex solutions into clear, understandable guidance.
- Support software installation and general technical assistance while applying analytical thinking and problem-solving.

Information Systems 203 Tutor, *Rhodes University* 2026

- Accounting Information Systems Security and Controls, Database SQL, Data Analytics, Disruptive Technologies for Accountants
- Support students with Information Systems concepts, including database/SQL topics, security and controls, data analytics, and disruptive technologies for accountants.
- Help students connect technical concepts to financial reporting and control contexts.
- Adapt explanations to learners' needs and communicate technical material in an approachable way

Accounting 1 Tutor, *Rhodes University* 2025

- Provided group tutoring in Accounting, simplifying complex concepts for diverse learning styles.
- Developed students' understanding of accounting principles, improving their academic performance and confidence.
- Demonstrated strong communication, patience, and leadership skills while managing tutoring responsibilities independently.

Entrepreneur; E-Commerce, *Lerona Scentuals* 2021 – 2022

- Founded and managed an e-commerce business, overseeing website design, digital marketing, inventory, and customer service.
- Built and maintained strong client relationships, driving sales and ensuring customer satisfaction.
- Developed organizational, creative, and strategic planning skills, showcasing initiative, resilience, and business acumen.
